This an end of the road very private ranch with a total of 705 acres (TBS) that is enclosed with a game proof fence. Roads have been cut over and along the ridges that overlook deep canyons and offer spectacular views of the Texas Hill Country in northwestern Real County. There is a windmill located near the entrance that needs repair but it is reported the water is good. This ranch is in a pristine natural state and very private with plenty of cover, native hardwoods and mountainous terrain. It is the ideal game ranch or nature preserve. There are numerous jeep trails to use for those who want to get close to nature. This place would make an excellent corporate retreat with the addition of some cabins. The silence is deafening with the exception of all the sounds of nature. Wildlife of all types, native and exotic are everywhere.
